MUNICIPAL LIGHT PLANT AND GROUNDS, FORT COLLINS, COLORADO

Fort Collins, one of northern Colorado's most progressive towns has made a delightful setting for its municipal light and power plant, showing how a utility building can be made beautiful. Located on the banks of the Poudre River, fronting on U. S. Highway 285, surrounded by fine lawns and shrubbery and beautified with a fountain and rock garden, it is a very pretty scene.

SANBORN SOUVENIR CO., DENVER, COLO.
